Economy

IMF expects India to grow at 7.4 pc in FY'19

The Indian economy is expected to grow at 7.4 per cent in the current fiscal and accelerate further to 7.8 per cent as it recovers from the impact of demonetisation and GST roll out, IMF said today. Asia continues to be the main engine of the world's economy, accounting for more than 60 per cent of global growth three-quarters of which comes from China and India alone, as per IMF's Regional Economic Outlook: Asia and Pacific (REO).

India to achieve 9pc growth rate by 2022

NITI Aayog vice-chairman Rajiv Kumar today exuded confidence that Indian economy will achieve 9 per cent growth rate on sustained basis by 2022 on the back of reforms like GST, demonetisation and the Insolvency and Bankruptcy Code (IBC). Indian economy grew by 6.6 per cent in 2017-18 and expected to grow at 7.5 per cent this fiscal. "Given that we have done GST, demonetisation, IBC, recapitalisation of bank, we will grow at 9 per cent growth by 2022. We will also able to sustain it at that level," Kumar said in facebook live organised by NITI Aayog. He pointed out that Indian economy averaged 8.3 per cent from 2003-11.

India's 7% projected growth rate 'amazingly fast', can double economy in 10 yrs: ADB

The Asian Development Bank has said that India's projected GDP growth of over seven percent for the current fiscal is amazingly fast and if this momentum is maintained the size of the economy can double within a decade. ADB Chief Economist has said that growth is driven more by domestic consumption than exports. The ADB has projected India to
China and India—Asia’s first and third largest economies, respectively—should aim for “growth-friendly” fiscal consolidation to promote sustainable, inclusive growth while enhancing resilience as the two countries together contribute 45% to global growth, the International Monetary Fund (IMF) said on Wednesday. “Asia continues to be both the fastest-growing region in the world and the main engine of the world’s economy, contributing more than 60% of global growth (three-quarters of which comes from China and India),” IMF said in its Asia Pacific Regional Economic Outlook.

India ranks 4th on Asia-Pacific Power Index; called ‘giant of future’

India has found itself at an impressive fourth rank out of 25 countries on the power index in the Asia-Pacific region, PTI reported. India has been described as a “giant of the future” though it lags behind in categories like defence networks and economic relationships, the report added. The power index measures the countries’ overall power. The Lowy Institute Asia Power Index included 25 countries in its study and they included as far-away countries like Pakistan, Russia, Australia, New Zealand and also the US. The Lowy Institute is a think-tank based in Sydney, Australia, and it is its first-ever index.

Indian economy projected to grow 7.6% in 2018-19: UN

India’s economy is projected to grow 7.6 per cent in fiscal year 2018-19, remaining the fastest growing economy in the world, as robust private consumption and benefits from past reforms help the country’s GDP gain momentum but sustained recovery in private investment remains a crucial challenge, according to a UN report. The UN World Economic Situation and Prospects (WESP) as of mid-2018, launched here today, said GDP growth in India is expected
to climb to 7.5 and 7.6 per cent in fiscal years 2017-18 and 2018-19 respectively. This is a substantial recovery from the 6.7 per cent growth India registered in fiscal year 2017.

India to have talent surplus of 245 mn workers by 2030, says study

India is projected to have a skilled labour surplus of 245 million workers by 2030, mainly on the back of “vast supply of working age citizens”, even as most of the developed and developing economies are expected to grapple with talent crunch at that time, says a study. Organisational consulting firm Korn Ferry today said there is likely to be a “talent deficit of 85.2 million workers” by 2030 across the 20 major developed and developing economies that were covered in the study.” This global skills shortage could result in USD 8.452 trillion in unrealised annual revenue by 2030 – equivalent to the combined GDP of Germany and Japan,” the study said. According to the study, India is the only country expected to have a surplus of highly skilled financial and business services labour by 2030. “India is projected to have a skilled-labour surplus of around 245.3 million workers by 2030, the only country in our study expected to have a surplus, owing mainly to its vast supply of working-age citizens and government programmes to boost workers’ skills,” it noted.

World’s most ambitious planned urbanization being undertaken in India: Urban Affairs Minister

The Union Minister of State for Housing & Urban Affairs (Independent Charge), Shri Hardeep Singh Puri and the Union Minister of State for Civil Aviation, Dr. Jayant Sinha were present for the valedictory session today, of the two-day India Economic Summit, in Mumbai. Addressing the audience, the Urban Affairs Minister Shri Puri observed that the Indian urban space has been neglected for long after independence. The Minister said that the policies and flagship programmes embarked on by the Government under Prime Minister Shri Narendra Modi have the potential to introduce a paradigmatic shift in how we view urban issues. He said that moreover, these policies collectively constitute the most comprehensive, ambitious and audacious planned urbanization undertaken anywhere in the world.

All Indian households to have electricity connection this year

All Indian homes will have electricity connection by December 2018, power minister Raj Kumar Singh said on Tuesday. The National Democratic Alliance (NDA) government had set a target to achieve universal household electrification by 31 March 2019. With electricity reaching all 597,464 census villages on Saturday, the government’s focus is now on providing electricity connections under the Pradhan Mantri Sahaj Bijli Har Ghar Yojana (Saubhagya). Mint had on Saturday first reported that all Indian villages had been provided access to electricity.
India rises a notch to 44th on competitiveness index, US tops list

India has moved up to 44th position on IMD’s World Competitiveness Ranking 2018, up one rank from last year. The United States continues to be the most competitive country in the world, followed by Hong Kong, Singapore, Netherlands and Switzerland. IMD measures a country’s competitiveness based on its performance on four key pillars — economy, government efficiency, business efficiency and infrastructure.

India looks forward to balanced RCEP trade pact: Commerce Secretary Rita Teaotia

India will endeavour to have a “balanced” RECP trade agreement as it would cover 40 per cent of the global GDP and over 42 per cent of the world’s population, a top government official said today. The Regional Comprehensive Economic Partnership (RCEP), negotiations for which started in November 2012, aims to cover goods, services, investments, economic and technical cooperation, competition and intellectual property rights. The RCEP bloc comprises 10 Asean members (Brunei, Cambodia, Indonesia, Malaysia, Myanmar, Singapore, Thailand, the Philippines, Laos and Vietnam) and their six FTA partners – India, China, Japan, South Korea, Australia and New Zealand.

India Inc’s April M&A deal tally up 8-fold to $19 bn: Report

India Inc’s mergers and acquisitions (M&As) tally rose eight-fold to USD 19.1 billion with 40 transactions in April, making it the highest monthly deal value recorded after March 2017, says a report. According to Grant Thornton, relative easing of regulatory ecosystem and consolidation across sectors have significantly driven the deal activity in April this year, sealing deals (M&A and PE) worth USD 21 billion across 119 deals.

India receives first cargo for Mangalore petroleum reserve from ADNOC

India today received its first crude oil cargo shipment from Abu Dhabi National Oil Company (ADNOC) for its strategic petroleum reserve at Mangalore. The shipment is part of the agreement under which ADNOC will store 5.86 million barrels of crude oil in the country under India’s Strategic Petroleum Reserve (SPR) programme, the oil ministry said
in a statement. "In February 2018, during the visit of Prime Minister Narendra Modi to UAE, ISPRL and ADNOC signed an Agreement under which ADNOC will store about 5.86 million barrels of crude oil in India’s SPR facility at Mangalore at its own cost. The filling up began with the 2 million barrels reaching Mangalore today. ADNOC will bring additional crude oil and fill up the Mangalore cavern later this year," the ministry said.

We have doubled the coverage of City Gas Distribution since 2014-Dharmendra Pradhan

The Petroleum & Natural Gas and Skill Development Minister Shri Dharmendra Pradhan has said since May 2014, when our Government took over, we have doubled the coverage of CGD networks to 94 Geographical Areas spread across 130 districts. Natural Gas is the fuel for the future and the need is to increase share of Gas in India’s primary energy basket from current 6.5% to 15%. Elaborating on this the Minister made it clear that till 2014, India had City Gas networks in 47 Geographical Areas across 73 districts. Through the 9th Bidding round, we are rolling out City Gas networks in another 86 GAs (Geographical Areas) covering 174 districts. After this round, India shall have CGD coverage in nearly 50% of the total 640 districts in the country and about 50% (61 Crore) of the population of the country.

Ministry of HRD launches ‘SamagraSiksha’ scheme for holistic development of school education

The Union Minister for Human Resource Development Shri Prakash Javadekar launched the ‘SamagraShiksha’ - an integrated Scheme for school education extending support to States from pre-school to senior secondary levels for the first time in New Delhi today. The Scheme is a paradigm shift in the conceptual design of school education by treating ‘school’ holistically as a continuum from pre-school, primary, upper primary, secondary and senior secondary levels. Speaking on this occasion, Shri Javadekar said that in keeping with Prime Minister’s commitment of providing of ‘SabkoShikshaAchchiShiksha’, The Ministry of HRD has taken a landmark step and completely overhauled the existing Schemes in School Education to treat schooling as a smooth transition from pre-school, primary, upper primary, secondary and senior secondary level. It focuses on improving quality of education at all levels by integrating the two T’s – Teachers and Technology. He elaborated that ‘Samagra’ means a holistic approach to treat education as a whole and the Scheme is very aptly named as it sees school education holistically without segmenting it into various levels of education.

F-16 production can make India fighter jet export hub: Lockheed Martin

Global aerospace giant Lockheed Martin today said its proposal to manufacture custom-built F-16 fighter jets in India will make the country an export hub and give it access to an estimated $165 billion fighter aircraft market over the next few decades. Eyeing India’s lucrative defence market, the American aerospace major said F-16 production would place India at the centre of the world's largest fighter aircraft ecosystem, creating "unmatched" Make in India opportunities and export potential.

Odisha on radar for the Rs 150-bn SAIL-ArcelorMittal auto grade steel JV

Odisha, home to steel manufacturing units owned by Tatas, Jindals and others, is being considered as one of the potential locations for an automotive grade steel plant proposed jointly by ArcelorMittal and Steel Authority of India Ltd (SAIL). SAIL has written to Odisha industries secretary Sanjeev Chopra, evincing interest to locate the auto grade steel facility in the state.

Steel sector may get boost from infra growth: Birender Singh

Steel minister Chaudhary Birender Singh today said the steel industry is set to see big growth opportunities as 70 percent of the country’s infrastructure estimated at Rs 6 lakh crore is still to come up. "I think, 70 percent of India’s infrastructure is still to come up. There is a provision of Rs 6 lakh crore for infrastructure. Even if 10 percent goes to steel, there is around Rs 60,000 crore for the industry," Singh said at the MSME Steel Conclave 2018 organised by the Steel Re-rollers Association of Maharashtra (SRAM) here.

India’s steel output grows 4 pc to 8.59 MT in Apr

India’s crude steel production grew 4.4 per cent to 8.59 million tonne (MT) during April 2018, according to official data. The country had produced 8.22 MT during the same month a year ago, the Joint Plant Committee (JPC) said in a report. "During April 2018, crude steel production was at 8.59 MT, a growth of 4.4 per cent over April 2017," it said. SAIL, Rashtriya Ispat Nigam Ltd (RINL), Tata Steel, Essar Steel, JSW Steel and Jindal Steel and Power Ltd together produced 5.01 MT during April. This was 6.7 per cent more compared to 4.7 MT the six players had produced in April 2017, the report said. "The rest 3.57 MT came from other producers, showing a growth of 1.4 per cent over April 2017," it added.
