## India to become third largest economy in 4 - 5 years: Piyush Goyal

The Union Minister for Trade and Industry, Textiles and Consumer Affairs, Food and Public Distribution, Mr Piyush Goyal, addressed the Asia Economic Dialogue in Pune. The Minister expressed his opinion that India would have the third-largest economy in four to five years. He said that "My own conviction about the way India is growing is that we will drive our economy probably closer to 35 - 40 trillion-dollar economy by 2047. The desire of every Indian is to be second to none."

## Economy to grow at 7% despite global headwinds: Finance Ministry Data

The Indian economy is estimated to grow by 7% year-on-year in the current fiscal, despite the global economy operating under an extremely challenging macroeconomic environment. According to the monthly economic review for January 2023, the union budget's measures to increase capital spending focus more on infrastructure development, supporting the green economy.

## Visit of Hon'ble External Affairs Minister of India, Dr. S. Jaishankar to Sydney on 18 February 2023

External Affairs Minister (EAM) Dr. S. Jaishankar paid an official visit to Sydney, Australia on 18 February 2023. EAM met Australian Foreign Minister H.E. Ms. Penny Wong. They discussed a wide range of bilateral cooperation issues and exchanged views on the Indo-Pacific and other multilateral matters. EAM looked forward to Minister Wong's visit to India in early-March for G-20 meetings and the Raisina Dialogue.

EAM called on Australian Prime Minister H.E. Mr. Anthony Albanese to discuss various matters of mutual interest, including forthcoming high-level exchanges. EAM also held discussions with Australian Deputy Prime Minister and Defence Minister Richard Marles. They discussed furthering bilateral cooperation in the defence sector, including maritime security.

EAM delivered a keynote address at the inaugural Raisina@Sydney conference that was jointly organised by the Observer Research Foundation (ORF) of India and the Australian Strategic Policy Institute (ASPI). He also joined a panel discussion with the Australian Minister for Climate Change and Energy, Chris Bowen. India and Australia elevated bilateral ties and entered into a Comprehensive Strategic Partnership in June 2020.

EAM's visit was in continuation of the regular high-level engagements between the two sides. EAM had previously visited Melbourne in February 2022, and Sydney and Canberra in October 2022.

**Goods and services exports may reach US\$ 1 trillion each by 2030: Mr. Piyush Goyal**

According to Commerce and Industry Minister Piyush Goyal, India's goods and services exports are growing at a healthy rate and are expected to be around USD 1 trillion each by 2030. The country's merchandise and services exports touched an all-time high of USD 422 billion and USD 254 billion, respectively, in 2021-22.

"My own estimates seem to suggest that we will converge (goods and services exports) by 2030...seven years from now at about USD 1 trillion of goods and USD 1 trillion of services (exports). "That is the trajectory I can see which will mean merchandise doing 8- 9.5 per cent and services doing anywhere between 16-17 per cent, Minister Goyal said at an event.

**ECTA will boost Indian exports: India eyes opportunities in Australia's chemical industry.**

The chairman of India's chemical industry council, S G Mokashi, recently led a delegation of 23 Indian companies to Australia, the first such visit since the Australia-India Economic Cooperation and Trade Agreement came into force in December 2022. The focus of the chemical buyer-seller meet was to seek opportunities for expanding two-way trade and collaboration with the Australian chemicals market. A chemical buyer-seller meeting was held last week in Melbourne to explore possibilities of future growth of exports and increased investment in the chemicals sector. The meeting was organised by The Basic Chemicals, Cosmetics & Dyes Export Promotion Council popularly known as CHEMEXCIL with the support of the Department of Commerce and Industry, Government of India.

**India added 1,300 tech start-ups and 23 unicorns in 2022, US\$ 73 billion in equity investments.**

In 2022, about 1,300 start-ups with a technology focus were added, bringing the overall number of active tech start-ups to 25,000-27,000. In addition, India added around 23 unicorns in 2022, which was the second-highest number in the world. A total of US\$ 73 billion in equity investments have been raised by tech start-ups in India, of which US\$ 18.2 billion came in 2022.

According to a NASSCOM analysis, this was less than the US\$ 24.1 billion raised in 2021 but more than the US\$ 13.1 billion raised in the year prior to the 2019 pandemic.

The country also added the second-highest number of unicorns in the world, with over 23 added in the calendar year 2022. It has a total of 89 technology-focused unicorns. India has 174 potential unicorns and 60 were added to the list in 2022.

The influence of women in the startup ecosystem has increased. A woman is at least one of the founders or co-founders of 36% of unicorns and potential unicorns. About 17% of all investment deals between 2019 and 2022 were raised by women-led start-ups.

**India sets a target of 5 MMT annual green hydrogen production by 2030.**

Ms. Nirmala Sitharaman, the Union Finance Minister, has announced India's target of green hydrogen to reach an annual production of 5 million metric tonnes (MMT) by 2030, while presenting the Budget 2023 in the parliament. She also said that India is moving forward firmly for the 'panchamrit' and net-zero carbon emissions by 2070 to help in the green industrial and economic transition. She stated that the National Green Hydrogen Mission will facilitate the transition of the economy to low carbon intensity and reduce dependence on fossil fuel imports. Furthermore, she proposed an allocation of US\$ 4.29 billion (Rs. 35,000 crores) for priority capital investments towards energy transition and net zero objectives and energy security. Highlighting the vision for 'LiFE', or Lifestyle for Environment, aimed at spurring a movement for an environmentally conscious lifestyle, the Minister added that the budget builds on our focus on 'Green Growth', which will guide us through the Amrit Kaal. She stated that Battery Energy Storage Systems with a capacity of 4,000 MWH will be supported with Viability Gap Funding.

## Incredible India Tourism

### UTTAR - PRADESH

Uttar Pradesh is one of the states that aesthetically defines India and its rich history that's as ancient as the time known. This is the land wherein great sages have emerged, religions evolved and two great epic of India: Ramayana and Mahabharata have been inspired from. Apart from Varanasi (the spiritual capital of India), Allahabad, the holy confluence of two major rivers- Ganga and Yamuna flowing in the subcontinent and of course Agra that beautifully preserves the intellectual excellency of Mughal architecture- there are many more destinations here that piques the interest of every traveler and displays every shade of Indian ethnicity. More of which can be explored in special events and festivals that embarks gathering of pilgrims from all across the country and nation's borders, be it annual the Holi festivals in Barsaana and likewise or iconic Kumbh gathering held once in 12years, at Allahabad.

Travel Uttar Pradesh to explore India's culture and the origin of human beliefs.
