India's corporate tax rate is now among the lowest globally

Lower the better: Though the incentive is only for companies that do not claim any exemption, it is a big move that brings India on par with peers in Asia and across the globe.

India is now among the countries that have a low corporate tax rate. India's statutory rate for corporate tax is 22 per cent now. Manufacturing companies incorporated after 1 October 2019, will have the benefit of an even lower rate of 15 per cent (effective tax rate of 17.01 per cent).
